**First Office Action on the Merits of a RCE**

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 2, 2008 has been entered.
  
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

***Claim Rejections - 35 USC § 103***

3. The rejection of claims 1-4 under 35 USC 103(a) over Kim et al. (US 2002/0025951 or WO 01/47945) in view of Berge et al. is maintained.

Applicant argues, in both the Remarks and Declaration filed June 2, 2008, that the prior art references do not disclose how to make the claimed salts nor do they provide any expectation of that said salts can be made by routine experimentation. Applicant's argument was considered but not persuasive for the following reason.

The issue is not the method of making the claimed salts but whether said salts would have been obvious to the skilled artisan in the art at the time of the present

invention. Because hydrochloride and hydrobromide salts are well known salts in the pharmaceutical art and said salts of steroids are also well known (see for example, US 4,451,405, Examples 6-10; US 3,723,524, Example L), the hydrochloride and hydrobromide salts of 17 $\alpha$ -acetoxy-21-methoxy-11 $\beta$ -(4-N,N-dimethylaminophenyl)-19-norpregna-4,9-diene-3,20-dione as taught by Kim would have been obvious to the skilled artisan in the art.

For this reason and those given in previous Office Actions, the rejection of claims 1-4 under 35 USC 103(a) over Kim et al. (US 2002/0025951 or WO 01/47945) in view of Berge et al. is maintained.

#### ***Conclusion***

4. This is a continuation of applicant's earlier Application No. 10/815,351. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1612

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
